# Open High School

where your dream of leaning becomes a reality

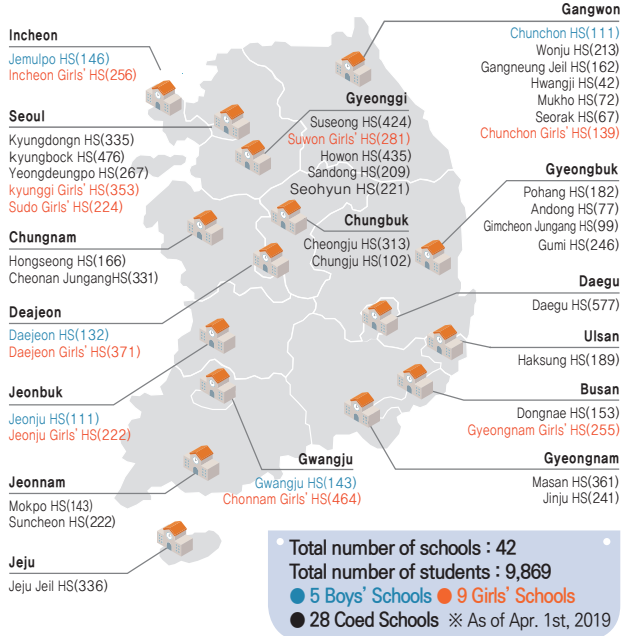

“ Give yourself the opportunity to realize your long-awaited dream of studying ”

# Introduction

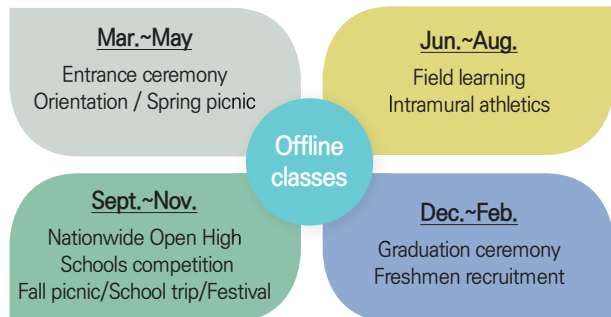

## A school that students can attend from anywhere around the nation

Open High Schools are established as affiliated schools at prestigious public high schools across the nation, so that students are able to attend classes near their home.

## A school that you go to twice a month

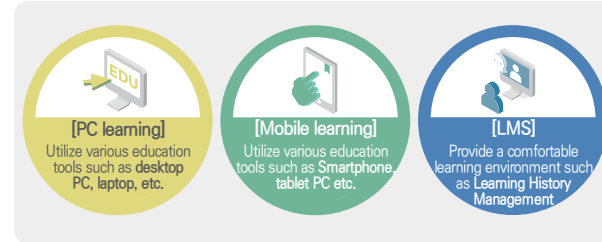

Offline classes occur twice a month (every other weekend), and students take cyber courses through the Internet during the week. Offline classes include curriculum learning as well as other various school programs.

## A school that provides digital-based lifelong learning

Students can study easily and effectively with various learning methods through the Internet anytime, anywhere.

### ✓ Cyber Education System

## A school that provides customized education programs

Digital Education Research Center offers education programs customized for Open High School students.

### ✓ Learning Support Programs

- Support students as they complete formal education in English and Math
- Provide online tutoring services
- Conduct assessment of basic academic skills
- Provide contents tailored to individual levels and real-time video lectures

### ✓ Supportive curriculum for character & career development

- Run counseling services tailored to each student's needs
- Provide learning materials for character building & career development
- Conduct personality and career tests for students

## A school that acknowledges various learning experiences

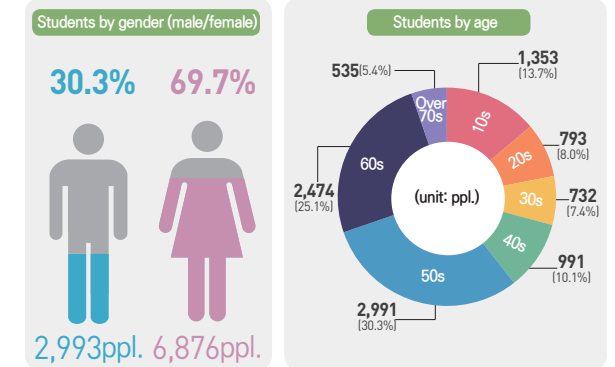

Students can get their learning experiences outside of school (Licenses, GED(general equivalency diploma), public employment training facilities) recognized as the equivalent of a curriculum subject via the recognition of prior learning. Students can graduate up to one year early as they can get excused from classes or exams.

# Current status
